

Energy Policy

Tata Motors Limited is committed to efficient and responsible use of energy in its operations as a key driver of business excellence, climate action, and sustainable growth.

Towards this end, we will:

- Continually improve energy performance through the Energy Management System
- Select, procure and operate energy-efficient equipment and services
- Ensure compliance with applicable legal and other requirements
- Set and review energy objectives and targets, benchmarking against sectoral best practices
- Build awareness among employees and other stakeholders on energy efficiency and clean energy adoption
- Commit to achieve 100% renewable electricity (RE100) in operations by 2030

This policy has been communicated to all our employees and shall be made available to all stakeholders on request.

Girish Wagh
Managing Director and
Chief Executive Officer
