

Environment Policy

Tata Motors Limited reaffirms its commitment to environmental stewardship in our products, operations, value chain and services as a part of its sustainability strategy, to lead the transition towards a circular and regenerative economy.

Towards this end, we will:

- Design sustainable products and technologies that meet and exceed regulatory norms on emissions, energy efficiency, circularity, with a focus on minimizing impacts and dependencies on Nature and Biodiversity
- Use appropriate technologies to protect the environment and prevent pollution from our products, operations, and services
- Comply with all applicable legal, regulatory, and other environmental requirements
- Set and periodically review environmental objectives and targets
- Minimize waste and emissions by adopting circular models, increase reuse and recycling, and ensure sustainable disposal practices
- Build awareness and capability of our employees, suppliers, dealers, and customers, and collaborate with stakeholders to accelerate positive impact
- Continually improve environmental performance using robust monitoring and data systems
- Conserve energy, water, and natural resources by optimizing consumption and enhancing efficiency across our processes

Towards this end, we commit to:

- Achieving Net Zero (Scope 1, Scope 2 and Scope 3) GHG emissions across our business by 2045
- Achieve and sustain 100% renewable electricity (RE100), Water Neutrality and Zero Waste to Landfill across our manufacturing sites by 2030

This policy has been communicated to all our employees and shall be made available to all stakeholders on request.

Girish Wagh
Managing Director and
Chief Executive Officer
