# Supplementary Notes to the Financial statements to 31-03-2019

## Supplementary notes, initial part

### NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31/03/2019 UNDER ARTICLE 2435 - BIS OF THE CIVILE CODE

#### INTRODUCTION

The Financial Statements as at 31/03/2019, of which this Note to the accounts is an integral part according to art. 2423, paragraph 1 of the Italian Civil Code, which correspond to the results for the book entries regularly made and which were drafted in compliance with articles 2423, 2423*b*, 2424, 2424*a*, 2425, 2425*a*, 2425*b* of the Italian Civil Code, in accordance with the accounting principles contained in art. 2423 and the valuation criteria defined as in art. 2426 of the Italian Civil Code.

The financial statements of the financial year have been drafted in a condensed form according to art. 2435 *a* of the Italian Civil Code, since the requirements as defined by paragraph 1 of the above mentioned article have been fulfilled.

Therefore, this note to the accounts include indications as defined by paragraph 1 of art. 2427, regarding the entries specified in paragraph 5 of art. 2435 *a* of the Italian Civil Code, is provided.

Moreover, this note to the accounts reports information required by numbers 3) and 4) of art. 2428 of the Italian Civil Code, therefore the management report has not been drafted according to art. 2435 *a*, paragraph 6 of the Italian Civil Code.

The valuation criteria defined as in art. 2426 of the Italian Civil Code are the same as those used for the financial statements for the previous reporting period and there were not any extraordinary events that required the use of derogations as defined by art. 2423*a*, paragraph 2 and 2423, paragraph 5, of the Italian Civil Code.

There are no elements belonging to either the assets or the liabilities that have included as different items in the balance sheet at the same time.

#### DRAFTING CRITERIA

In order to prepare the financial statements clearly and to provide a truthful and correct representation of the equity and the financial situation, as well as of the economic result, the following steps were taken, in accordance with article 2423 *a* of the Civil Code:

- evaluate the single items prudently and with a view to presenting a common corporate continuity;
- include only the profits that were actually made during the financial year;
- determine the income and the costs on an accrual basis, regardless of their financial situation;
- include all the risks and the losses on an accrual basis, even if they became known after the end of the year.
- consider separately the heterogeneous elements included in the different categories of the financial statements, in order to evaluate them;
- maintain the same valuation criteria adopted in the previous financial year.

#### EVALUATION CRITERIA

The criteria applied for evaluating the items of the financial statements, reported as follows, are in compliance with the provisions of art. 2426 of the Italian Civil Code.

### **Intangible fixed assets**

Intangible fixed assets are registered, to the extent of the recoverable amount, at their historical purchase value or internal production costs, including any directly attributable ancillary charges, and they are systematically amortised at constant rates according to the residual value of using the asset.

The set-up value corresponds to the costs incurred for the consideration of corporate structures, when there are future economic benefits and a recoverability of the investment, and it is amortised according to its useful life, taking into account all the available information to determine the period in which the economic benefits can be measured

The applied rates are as follows:

Plants and machinery: 12% to 30%

Industrial and commercial equipment: 15%

Other assets:

- fixtures and fittings: 12%
- electronic office machinery: 20%

### **Inventories**

Inventories are registered when the company transfers the risks and benefits associated with ownership of the goods, and are recorded at their lower value, that is either as the purchase cost, comprehensive of all directly attributable costs and ancillary charges and of indirect costs relating to internal production, or the estimated realisable value, with reference to the market value.

### **Receivables**

Receivables are classified either as fixed or current assets on the basis of their designation / origin, with respect to their ordinary activities, and they are recorded at their estimated realisable value.

#### *Tax receivables*

The item "Tax receivables" includes definite amounts arising from sure and certain receivables for which a right of realisation arose through reimbursement or compensation.

### **Cash and cash equivalents**

Cash and cash equivalents are recorded at their nominal value.

### **Accruals and deferrals**

Accruals and deferrals were registered on the basis of accrual economic competence and include revenues / costs accrued and payable in future years, and revenues / costs incurred in the financial year but relating to future years.

Therefore, only the costs and revenues relating to two or more years, whose amount change in time, were registered.

At the end of the year it was verified that the conditions that led to the initial assessment have been met, and the necessary adjustments were made, if necessary, taking into account the elements of time and possible recoverability.

Accrued income, comparable to operating receivables, was valued at its estimated realisable value, causing, if the value is lower than the accounting value, as an impairment loss in the income statement. Accrued expenses, comparable to payables, were assessed at their nominal value.

As for prepaid expenses, the future economic benefit related to deferred costs was calculated and, if the resultant benefits were lower than the prepaid share, the value was adjusted.

### **Reserves for contingencies and other charges**

Reserves for contingencies represent liabilities related to conditions that existed at the date of financial statements, but whose occurrence is only probable.

Reserves for charges represent certain liabilities, related to negative components for profit made in the current year, but that will be recorded next year.

### **Reserves for pensions and similar commitments**

They represent the liabilities associated with the provisions for supplementary pension benefits and severance grants owed to employees, the self-employed and associates, according to the law or contract in vigour at the time of the termination of employment.

The provision for the year was determined, as an estimate, so as to allow for the progressive adjustment of the provision for the total share accrued at the end of the year.

### **Payables**

The division of the amounts due within and not after the financial year is made according to the contractual or legal maturity, and taking into account facts and/or events that might determine changes to the original maturity date.

Payables are classified under liabilities according to their nominal value, and represents their repayment value.

Payables that originate from the purchase of assets are recorded when contingencies, other charges and benefits are transferred; those originating from services are recorded when they have been fulfilled; financial and/or other payables are registered when the bonds due to the counterparty arise.

Payables due to the tax authorities include liabilities for taxes which are certain and are of a fixed amount, as well as taxes withheld by a withholdin agent and have not been allowed, in instances where compensation has been allowed, they are reported net of advances, also in the case of withheld taxes and tax credits.

### **Costs and revenues**

They are presented in accordance with the principle of prudent and economic competence.

Economic and financial transactions with group companies and with related parties are carried out as in normal market conditions.
